

2024 Heritage Fund Local, Regional, and State Park (LRSP) Grant Application(s)

Sponsor: Yuma County

Project: Foothills Park Development

Grant Request: \$110,000.00 Match: \$250,000.00

Total: \$360,000.00

Yuma County was awarded a Land and Water Conservation grant for the development of a new park, Foothills Park. The project includes new parking, walkways, picnic areas with ramadas, green open space, a playground, new restroom and related infrastructure. Project is 80% complete and the request is for additional funding to cover the increased cost of a new restroom and related infrastructure to complete Phase I of the new park.

Sponsor: City of Winslow

Project: 9-11 Remembrance Garden and Park Improvement

Grant Request: \$101,340.00 Match: \$101,340.00

Total: \$202,680.00

Winslow is requesting funding to install lighting, a gazebo, and a sign at the 9-11 Remembrance Garden and Park. The lighting will allow community programs and remembrance ceremonies to occur after dark, when it's cooler. The gazebo will create a stage for musical presentations, held as part of ceremonies. The sign will provide information about the Remembrance Garden, events, and significance of the beams, the centerpiece of the Garden.

2024 Land and Water Conservation Fund LWCF Grant Application(s)

Sponsor: Pinal County

Project: Palo Verde Regional Park

Grant Request: \$1,000,000.00

Match: \$1,000,000.00

Total: \$2,000,000.00

Pinal County is requesting funds to develop a new regional park, Palo Verde Regional Park, located in the western part of Pinal County southwest of Maricopa within the Palo Verde Mountains. The park plan includes a dynamic range of recreational opportunities for picnickers, non motorized trail users, night sky users and tent/RV campers. Palo Regional Park is approximately 497 acres owned by the Bureau of Land Management. BLM issued the lease for the property to Pinal County in September 2022. The proposal is part of a master plan which was developed in 2016.

Sponsor: City of Page

Project: Sports Fields Complex Splashpad

Grant Request: 514,579.00

Match: 514,579.00

Total: \$1,029,158.00

The City of Page is requesting \$514,579 in funding to renovate the existing child's play area located at the City of Page's Sports Fields Complex and add an approximate splashpad that will be all inclusive of all modern splashpad amenities. The project consists of a finished anti-slip surface, multiple water jets, shallow wading area, shade structures, vendor kiosks, public restrooms, and ample parking for patrons. Accessibility and inclusion for the population of City of Page and daily summer visitors from the surrounding region will be a priority.

Sponsor: City of Show Low

Project: Timothy McKay Park Development

Grant Request: \$867,757.50

Match: \$867,757.50

Total: \$1,735,515.00

The Timothy McKay Memorial Park is a passive park designed specifically to maintain greenspace in the middle of town, established from input provided by City Council and the Parks Advisory Committee. The park includes 2 pedestrian bridges and 4,700 linear feet of ADA compliant multi use path and includes 2.5 acres of irrigated grass, 3 acres of native grasses and wildflowers and 22 additional shade trees. The building on the property will be repurposed to include a restroom and event space. Three 12x24 ramadas will be scattered throughout the park with 42 parking spaces constructed. A passive play mound will provide accessible play in all seasons and the water feature will offer seasonal entertainment.

2024 Heritage Historic Preservation Grant Application (s)

Sponsor: Archeology Southwest

Project: Taawaki: Orayvi Sun Clan House Rehabilitation and Work Force Training

Grant Request: \$145,882.00

Match: \$93,370

Total: \$244,252.00

Bringing this National Trust for Historic Preservation funding to this Heritage Fund grant will allow us to accomplish a great deal. We will begin with emergency stabilization and rehabilitation planning, and then will move into the rehabilitation process. There will also be funds for training a Hopi labor force to rehabilitate this and other traditional architecture. This grant also builds on previous work by the Hopi Foundation, as they developed a series of Technical Guides for preservation and maintenance of Hopi Clan Houses.

Sponsor: Frank Lloyd Wright Foundation

Project: Taliesin West Public Accessibility Improvements

Grant Request: \$19,416.00

Match: \$12,944.00

Total: \$32,360.00

Funding will be used to upgrade an existing restroom and toilet in the east wing of the Frank Lloyd Wright Museum. The current restroom is not accessible. Work will include new masonry, new walls, replacing tiles, bathroom fixtures, and framing. All will be built to today's ADA standards. Constructed in the 60's, the improvements will bring this into compliance for accessibility as the museum continues to upgrade the entire facility.

Sponsor: Arizona Board of Regents

Project: Kerr Restoration

Grant Request: \$34,500.00

Match: \$24,000.00

Total: \$58,500.00

The priority for ASU Kerr is to restore its interiors and exteriors with historical accuracy. This work includes restoration and preservation of the exterior and interior adobe (already in progress), restoration of many of the wood beams and unique doors, tile replacement, and improvements on the exterior stairwell on the former home, now utilized as the ASU Kerr production and box offices. Adobe and other aspects of the restoration effort are to be completed with local and onsite materials.

Sponsor: Cartwright School District

Project: Cartwright Heritage House Preservation

Grant Request: \$170,546.00

Match: \$113,699.00

Total: \$284,245.00

The Cartwright School District is seeking funding to begin a phased preservation and rehabilitation project aimed at revitalizing the Cartwright Heritage House Museum, a building constructed in 1884. Funds from this project will be used for restoration, stabilization, protection and rehabilitation projects. Specifically the following activities will be addressed during the project period: windows, doors, ceiling and roof repairs, truss work, masonry brick façade repairs, restoration of original chimney and upgrades to electrical components to bring to code as well as the installation of a fire alarm system. Work will begin within six months of the grant award and will be completed within the three year grant period.

Sponsor: Bisbee

Project: 1908 Fair Store Sidewalk Preservation

Grant Request: \$91,527.00

Match: \$64,510.00

Total: \$156,037.00

This pivotal restoration Project aims to preserve and stabilize a deteriorating glass sidewalk that projects light into the basement of The historic Fair Store (now The Bisbee Restoration and Mining Museum). This is a main pedestrian thoroughfare on Tombstone Canyon, in the middle of Bisbee's prime downtown area and tourist destination. The glass sidewalk is made of prefabricated Luxfer glass prisms cast into concrete panels and shipped from Chicago to Bisbee in 1908 as part of the rebuilding effort after our great fire. The Fair Store was Bisbee's high couture clothing, jewelry, and home goods store, selling the top luxury goods sourced globally. In 1968, the building was deeded to the Restoration Museum and has remained a 501-c3 dedicated to telling the stories of local people and families of Bisbee. The Museum is 100% volunteer-run and operates mostly on small donations from weekend visitors.

Sponsor: Oro Valley

Project: Proctor-Leiber House Condition Assessment

Grant Request: \$30,000.00

Match: \$20,000.00

Total: \$50,000.00

The Town of Oro Valley Parks and Recreation would like to hire a qualified consultant to conduct a historic building inspection on the current conditions of the Proctor-Leiber House located at Historic Steam Pump Ranch. The original two-story Spanish colonial/mission revival style house, known as the Proctor-Leiber house, was built in the late 1930's. Since the Town's acquisition of Steam Pump Ranch in 2007, minor repair work and cosmetic improvements have been made to the exterior of the house. A storm in 2008 caused great damage to the second story office and was deemed unstable for repair. The assessment will determine structural improvements that need to be completed..

Sponsor: Housing Opportunity Center

Project: Monroe Street Window Renovation

Grant Request: \$358,350.00

Match: \$238,900.00

Total: \$597,250.00

The Monroe Street Abbey historic restoration project is focused on the First Baptist Church building in downtown Phoenix. The building, constructed in 1929, placed on the National Register in 1982 as was almost destroyed by fire in 1984. The first and, from an exterior perspective, most important restoration are the deteriorated and, in some cases, missing windows on the north and east sides of the building and the bell tower. These windows require extensive repair and in many cases replacement. Grant funds would be used to repair three different sets of windows. The Tower is the most difficult with significant fire damage and complicated frames with diamond shaped glass. The east facing classroom windows (41 total) are more straightforward but a dozen are missing completely. The ground floor windows have transoms.

Sponsor: Stratford Art Works

Project: Teatro Carmen Stage Renovation

Grant Request: \$184,790.00

Match: \$126,953.00

Total: \$311,743.00

The original 1915 Teatro Carmen stagehouse & stage was removed in 1936 by the then-owners, the Black Elks Club. We are rebuilding those elements as part of the second phase of the project, which entails replacing the unsafe roof of the Theatre space with new trusses and decking along with the stage house rehabilitation. While we will not install the final theatrical equipment at this stage, we will be doing all of the infrastructure for the eventual lighting, sound, and film presentations.

Sponsor: Arizona Historical Society

Project: Charles Brown House Renovation

Grant Request: \$300,000.00

Match: \$214,248.00

Total: \$514,248.00

The Arizona Historical Society (AHS) is requesting financial assistance through the Heritage Grant process for a rehabilitation project involving the Charles O. Brown House located in downtown Tucson, Arizona. The project will focus on repairing structural deficiencies discovered during a Quadrennial Inspection by the Arizona Department of Administration (ADOA) Building and Planning Services Department that occurred on August 4, 2023. Two of the structural deficiencies were identified as posing immediate danger to the structure and people within. Specifically, the integrity of the 1870s era wood beams holding the roof and the integrity of the adobe masonry in areas of stucco lath failure. In addition, the 3-year project will include roof replacement, updating the roof electrical, closing unused chimneys, and replacing HVAC split units throughout the building. The order of repair will be determined after a building engineer specializing in wood structures performs an engineering assessment on the integrity of the ceiling beams and adobe walls.

Sponsor: Arizona Board of Regents

Project: Digital Archive Image Project

Grant Request: \$215,925.00

Match: \$86,624.00

Total: \$302,549.00

This project will partner experts from the DVPP and the Center for Digital Antiquity (CDA) at Arizona State University (ASU), Archaeology Southwest, and consultants from Salt River Pima-Maricopa Indian Community (SRP-MIC) and Gila River Indian Community (GRIC) to develop online archival tools and to create new educational materials about the DVPP petroglyphs. These products will promote education about the petroglyphs at DVPP among the interested public as well as K-12 and college-level students, which will help cultivate a new generation's appreciation for Arizona's indigenous history and heritage.

Sponsor: Coolidge

Project: Coolidge Women's Club Revitalization

Grant Request: \$69,413.00

Match: \$46,383.00

Total: \$115,796.00

The Coolidge Woman's Club is in need of revitalization due to age of the building and normal wear and tear. The revitalization will consist of window replacement, updating the electrical and plumbing, repair to any water damage, wall cracks, stucco, and flooring. After all repair is done, it will also need to be repainted. After all of the revitalization work is completed, the community members and visitors will be able to visit the Women's Club and rent the building for their events for a minimal fee that we use to keep up the maintenance and utilities of the building.

Sponsor: Fox Tucson Theater

Project: Historic Fox Tucson Renovation and Preservation

Grant Request: \$295,296.00

Match: \$196,863.00

Total: \$492,159.00

Built in 1930, the Fox was a hub of community activity for more than 40 years until economic conditions caused it to be shuttered in 1974. The building sat empty and fell into disrepair until it was restored and reopened on 12/31/05. To maintain its place as the Crown Jewel of Tucson, the Fox needs investment and maintenance. The Foundation seeks a grant of \$295,296 to complete a renovation and preservation project including: repairing and recoating the roof and replacing the HVAC system.

Sponsor: Rex Allen Museum

Project: Roof Replacement and Restoration

Grant Request: \$21,000.00

Match: \$14,000.00

Total: \$35,000.00

Replace the whole roof and repair the south adobe/stucco wall of the historic building that the museum owns and occupies. The metal roof has been patched numerous times, but many leaks have developed. Currently a complete tear-off and replacement is needed. This will not affect the architectural features of the building; however, a new roof is vital to preserving the structural integrity of the building and its contents. Repairs to the interior ceiling where leaks have damaged the sheet rock will also be made and finished to match the current painted surface.

The south exterior wall of the building has developed a sizable crack in the stucco and adobe is starting to crumble on the outside of the building. The wall is currently made of adobe with a smooth stucco layer on top of the original adobe bricks. The repairs will be made, and the exterior will be restored to a smooth stucco finish to match the existing finish of the wall.

2024 LWCF Outdoor Legacy Partnership Program Grant Application(s)

Project Sponsor: Tucson

Project: Jacobs Park Renovation

Grant Request: \$2,995,448.00

Match: \$2,995,448.00

Total: \$5,990,896.00

The Jacobs Park revitalization and expansion project is focused on redeveloping the park with modern field design, adding new recreation opportunities and creating family-oriented recreation areas. The project will incorporate green stormwater infrastructure improvements to better capture and utilize rainwater in the park, increasing tree canopy and reducing hardscape surfaces to mitigate urban heat island effect. The project also reduces turf to reduce water used for irrigation. The revitalization creates a traditional four field clover-leaf softball complex plus two additional soccer fields built to tournament standards; relocates and expands the dog park; eliminates a parking lot that encourages people to access the park by driving through the neighborhood and creates a family use area with a playground, ramada, grills, horseshoes and cornhole; adds a new restroom/concession building; updates irrigation throughout the park; builds a new skate park, futsal and pickleball courts; and plants 310 new trees in the park.

2024 Recreational Trails Program Non-Motorized Grant Application(s)

Sponsor: Town of Oro Valley

Project: Improvements to Vistoso Trails Nature Preserve

Grant Request: \$144,500.00

Match: \$8,734.00

Total: \$153,234.00

The Town of Oro Valley is transitioning a prior golf course to a nature preserve, to create the Vistoso Trails Nature Preserve. A Master Plan for the site is in process and expected to be approved in May 2024. The Plan includes a review and assessment of the site, comprising 6.2 miles of paved walkways, providing a good basis for accessible enjoyment of the area. Several areas are not fully accessible by people who use wheelchairs.. Another issue identified is a lack of signs warning users of upcoming crossings and roads. Funding from Arizona Parks will allow Oro Valley to complete improvements to the trail to make it fully accessible, repair damaged parts of the trail, and add safety signage.

Sponsor: Pinal County
Project: CAP Trail Phase II
Grant Request: \$99,270.00

Match: \$11, 030.00

Total: \$110,300.00

The Central Arizona Project extends through Pinal County, connecting Pima County and Maricopa County. The idea of having a recreational trail along the CAP dates back to the initial planning and design of the project (1968), and it was determined that a low-impact recreational trail would serve well as an auxiliary use of the corridor. Pinal County has completed the section from the Pima County line to roughly Park Link Dr. Phase 2 includes from Park Link Dr. to Florence, AZ, at approximately 40 miles. Additionally, three trailheads are planned in Florence, Coolidge, and adjacent to the Brady Pump Station. The majority of the project is occurring prior via a BOR grant and County general fund dollars, however, about 1.2 miles of connecting trail and 70 carsonite signs still need to be completed.

Sponsor: City of Page
Project: BMX Pump Park
Grant Request: \$149,085.00

Match: \$149, 085.00

Total: \$298,170.00

The City of Page proposes developing an asphalt-paved 290 yard (870-foot) long looping BMX Pump Park with berms, moguls and jumps for use by children and adults of every skill level on city park property. The facility includes a large all-weather parking area for 50 automobiles, six (6) park benches, and a water drinking fountain and hoses for rinsing off bicycles and equipment. Project to be constructed west and about 150 feet from Sports Fields Complex parking lot, and about 200 feet south of Haul Road on property currently named as the Reinhold Lake Property. The dirt base course berms, moguls and jumps will be constructed, molded, and compacted with city-owned clean-fill dirt by the city's Public Works and Parks & Recreation Staff and equipment. The final asphalt paving will be provided and laid down by the successful bidder selected through a competitive bidding process .

Sponsor: Catalina State Park

Project: Catalina State Park Trail Development

Grant Request: \$150,000.00

Match: \$9,067.00

Total: \$159,067.00

Catalina State Park is requesting funding to formalize and construct a series of non-motorized trails. During the development of the Catalina State Park Master Development Plan as well as numerous scoping meetings, it was expressed the need for more official trails within the park. The proposed trails include the Alamo Canyon Loop Trail, the 50-year trail loop, and the Multi-use trail. The goal of the Alamo Canyon loop trail is to maintain a single designated USFS class 3 trail and to restore the social trails back to the native landscape conditions. The 50-year trail loop will be designated as a class 3 trail with designated use of equestrian and managed uses of hiking and bicycling. Lastly, the multi-used trail will be a class 5 trail which is designed for bicycling, hiking and equestrian use. The trail will have a decomposed granite substrate and run from the park entrance to the main trailhead.

Sponsor: Verde Valley Cyclists Coalition

Project: Copper Chief and Quail Springs Trail Development

Grant Request: \$150,000.00

Match: \$42,720.00

Total: \$192,720.00

RTP funds, augmented with other fundraising, will be used to complete construction of the Copper Chief Trail and begin constructing the Quail Spring Trail. The Copper Chief is a 10-mile and Quail Spring a 5-mile recreational multi-use, non-motorized trail project which is part of Segment 8 of the Verde Valley Circle Trail on the Prescott National Forest (PNF) between Cottonwood and Camp Verde. This Project will connect trails constructed during Phases 1 & 2 of the Blowout Wash Trail System to the Mingus Mountain Black Canyon Trail and begin a connector trail from the Copper Chief Trail to the Ogden Ranch Trailhead.

Sponsor: Arizona State Parks

Project: Statewide Trails Application

Grant Request: \$330,000.00

Match: \$670,000.00

Total: \$1,000,000.00

Arizona State Parks is requesting \$324,344 for the development of a statewide trails application. Funding will be used to develop this app by hiring a firm to not only get up to date information on all designated motorized and non-motorized trails in Arizona but to keep this information up to date. The app will be using both motorized and non-motorized funding for all trails.

2024 Heritage Fund Non-Motorized Trails Grant Application(s)

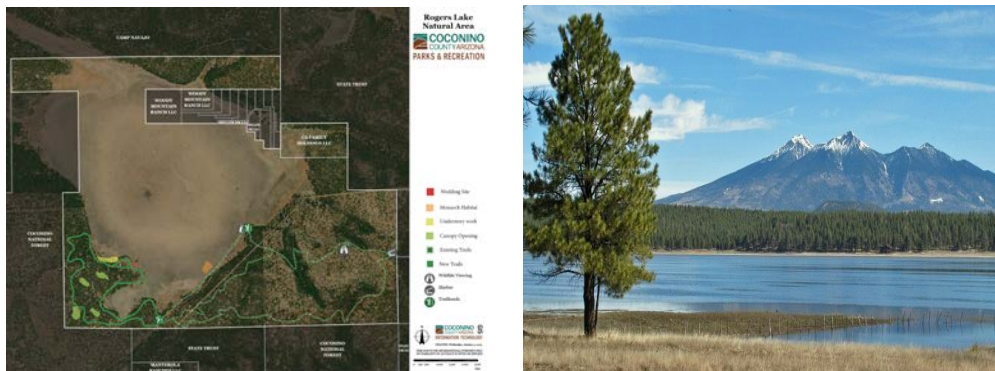

Sponsor: Coconino County

Project: Frontiere Trails Project

Grant Request: \$120,000.00

Match: \$45,000.00

Total: \$165,000.00

Coconino County Parks and Recreation [CCPR] is planning to develop a multi-use loop trail roughly 3 miles in length on the Frontiere property adjacent to the Rogers Lake County Natural Area. The Frontiere property is located about 5 miles west of the Fort Tuthill County Park roughly 8 miles south of Rt. 66 on Woody Mountain Road outside of Flagstaff. CCPR will start by hiring a consultant to conduct a Cultural Resource Survey of the entire property to ensure historic resources are undisturbed. CCPR will then conduct the ground truthing and trail rough-in in the fall of 2024 and spring 2025. CCPR will then hire a trail crew to conduct the trail treading in the summer of 2025. During the summer of 2025 CCPR will install 4 fence crossings to mitigate the risk of gates being left open adjacent to cattle grazing areas. CCPR will then install one small shade structure with a picnic table next to the trail with views of the San Francisco Peaks in the distance. In Fall 2025 CCPR will install all necessary directional trail signage along the trail corridor.

Sponsor: Verde Valley Trail Fund

Project: Verde Valley Circle Trail Segment 8

Grant Request: \$120,000.00

Match: \$63,180.00

Total: \$183,180.00

Heritage funds, augmented with other fundraising, will be used to complete construction of the Copper Chief Trail and begin constructing the Quail Spring Trail. The Copper Chief is a 10-mile and Quail Spring a 5-mile recreational multi-use, non-motorized trail project which is part of Segment 8 of the Verde Valley Circle Trail on the Prescott National Forest (PNF) between Cottonwood and Camp Verde. Through partnership with the Forest Service, the VVTF will manage the funding of professional trail builders and youth/veteran conservation corps (CC) crews and the FS will direct their on-the-ground project field work to complete construction. Project work will use a combination of mechanized personnel/professional trail builders and manual construction/restoration work by CC members and volunteers.

Sponsor: National Forest Foundation

Project: Finger Rock & Pontatoc Canyon Trail Enhancement

Grant Request: \$100,000.00

Match: \$34,000.00

Total: \$134,000.00

To prevent damage and preserve a coherent and usable trail system, the NFF is working with Coronado National Forest to adopt and improve trails or close and block unauthorized trails where they intersect with system trails. National Forest Foundation proposes connecting the trail between Finger Rock and Pontatoc Canyon is located within the Pusch Ridge Wilderness and Bighorn Sheep Management Area. Project work will focus on: The final ~1 mile of the existing Pontatoc Canyon Trail will be fully restored, closed to future traffic, and removed from the network. Specific actions will include tread maintenance and construction, vegetation removal, minor rock work for drainage and stabilization, and hazardous tree removal. The addition of this 1.9-mile connector will complete a 6.8-mile loop, providing spectacular hiking and running opportunities and views of Pontatoc Canyon and the greater Tucson valley. The design aims to provide an enjoyable user experience and ensure a sustainable layout that decreases erosion and minimizes maintenance.

2024 Recreational Trails Program Safety and Environmental Education Grant Application(s)

Sponsor: Verde Valley Wheel Fun

Project: Youth Education Program

Grant Request: \$30,000.00 Match: \$151,500.00

Total: \$181,500.00

This grant request, combined with other funding sources, will be used to fund three full time professional paid staff that will run FUN's operations and teach safe and responsible recreational trail use to students. FUN promotes safe, responsible recreational trail use and environmental stewardship to Arizona public school students. FUN uses mountain biking (MTB) to accomplish its work and currently operates after-school MTB clubs at 30 public schools. FUN adds at least ten new school clubs annually across the State. Currently, FUN is run by 62 volunteers supported by 1.5 full time equivalent consultants. Full time paid staff allow for increased focus and efficiency in promoting and educating Arizona's youth on responsible and safe trail use whose responsibilities would include meeting with school staff, supporting and monitoring club activities, creating and distributing promotional materials, and managing a website.

Sponsor: Cattail Cove State Park

Project: Trail Signage and Kiosk Replacement

Grant Request: \$5,206.00 Match: \$720.00

Total: \$5,926.00

This proposal seeks to provide educational and informative trail signs and two trail kiosks for Cattail Coves current hiking trail system. Cattail's trail system lies south of the developed portion of the park and continues along the shore of Lake Havasu. Cattail Cove State Park has 5 named hiking trails which are maintained by Arizona State Parks and Trails staff and volunteers. Proper signage will increase awareness, educate and promote public safety. Cattail Cove's trails are currently identified by two older hand painted wooden signs that mark the main trailheads. The signage will provide information about each trail loop, location, length and difficulty. Kiosks will provide detailed hiking trail maps, flyers, safety guidelines, and educational information.

2024 Recreational Trails Program Trail Maintenance Grant Application(s)

Sponsor: Bureau of Land Management

Project: Safford-Morenci Trail Maintenance

Grant Request: \$40,000.00 Match: \$13,299.00

Total: \$53,299.00

Safford Field Office is requesting funds to conduct trail maintenance on two sections of the Safford-Morenci Trail for a total of approximately 5 miles. Trail needs major brushing and clearing along the route and has not been worked on for approximately 10 years. Both sections of trail are simply overgrown with vegetation and difficult to follow and traverse as a result. They are covered not only with grass, but also lots of thorny desert plants and mature trees. Combined, these sections total around 5.1 miles. Most of the work that will occur on these sections will involve hand tools.

2024 State Lake Improvement Fund Grant Application(s)

Project Sponsor: Arizona State Parks and Trails

Project: Cattail Cove Pontoon Boat Replacement

Grant Request: \$150,000.00 Match: \$0.00

Total: \$150,000.00

Funding will be used to purchase a new, custom pontoon boat to be used by the park and volunteers on Lake Havasu. The work tasks include support of outdoor recreation along the shoreline of Cattail Cove State Park as well as neighboring areas on Lake Havasu. The workload includes cleaning, maintaining, enforcement, stewardship and rule enforcement in a heavily used portion of Lake Havasu. The new boat will replace an existing vessel that is beyond its useful life.

Project: Arizona State Parks and Trails

Project: Lake Havasu State Park North Dock and Parking

Grant Request: \$350,000.00

Match: \$0.00

Total: \$350,000.00

This project will bring much needed repairs to the hardscape surfaces and dock network at Lake Havasu State Park (LHSP). Welcoming more than 500,000 visitors on an annual basis, LHSP is arguably the busiest boat launch facility in Arizona. This traffic volume creates wear and tear on the infrastructure shortening typical windows of useful life. The North Dock is quickly deteriorating and has received numerous significant repairs.

Project: Alpine Fire District

Project: Rescue Watercraft and Equipment

Grant Request: \$66,019.00

Match: \$9,003.00

Total: \$75,022.00

The Alpine Fire District identified the need for updated water rescue equipment due to the severely outdated equipment on lakes/ivers in our response area. The best way to fill our need is the acquisition of two Sea-Doo personal watercraft, two trailers, four rescue helmets, four dry suits, four pairs of water rescue gloves, four rapid rescuer PFDs, two jet tech rescue sleds, and two river/ice rescue boats. This equipment will cover all four seasons that our response area experiences and will further strengthen our interoperability responses with neighboring agencies (Greer Fire District & Apache County Sheriff's Office).

Competitive Motorized Grants

Sponsor: Arizona State Parks and Trails

Project: Statewide Trails App

Request Amount: \$670,000.00

Match: \$330,000.00

Award Total: \$1,000,000.00

Choose Your Adventure

Each of the images below represents a group of specific OHV experiences. Click into the Show Me Rides portal to access rides that OHV Ambassadors have mapped out throughout Arizona and to learn more about becoming an OHV Ambassador! These rides are pre-packed OHV experiences that we've assembled for you! Click on the Arizona OHV Trailheads image to enter a portal that includes a statewide resource to find and use OHV trails and their corresponding trailheads. These trailheads are a great jumping off point to create your own OHV experience.

State Parks is proposing to develop a statewide trail app that will include all designated motorized and non-motorized trails. We anticipate that this app will have several attributes to search. State Parks currently has the data for all of the motorized and non-motorized trails but it has not been updated in several years. We are requesting funds to pay a contractor to develop the application, host the app and be required to keep this information current. The app will be free to all users.

Sponsor: Natural Restorations

Project: OHV Area Cleanups (Year 5)

Request Amount: \$ 341,701.00

Match: \$50,543.00

Award Total: \$392,244.00

During this project, the Dedicated Restoration Team will complete 24 trash and graffiti removal restoration projects & will host 3 volunteer events in OHV areas. Volunteer events will provide close to home opportunities for youth, the OHV community, non-OHV community members, & State Parks employees.

Sponsor: Arizona State Parks and Trails

Project: River Island Staging Area Phase 2

Request Amount: \$ 820,966.00

Match: \$1,129,034.00 Award Total: \$1,950,000.00

This project will be the phase 2 of the River Island Trailhead Development project between River Island State Park and Buckskin Mountain State Park next to the River Island Market. Phase 1 is prepared to go to construction which will include fencing, paving, burying current electrical, camp host site, curb and gutter work Information signage, and monument sign in preparation for Phase 2. Phase 2 will include 100% design/engineering plans for all phase two elements. Phase two items include well drilling and installation, restroom building, landscaping, lighting, ramadas, picnic tables, and final electrical hookups for restroom building and camp host. Based on Buckskin Mountain Sanitary District construction schedule, the restroom building will either be connected to the forced main line or be supported by a septic system.

Sponsor: Arizona Office of Tourism

Project: Appreciate AZ Campaign

Request Amount: \$200,000.00

Match: \$200,000.00

Award Total: \$400,000.00

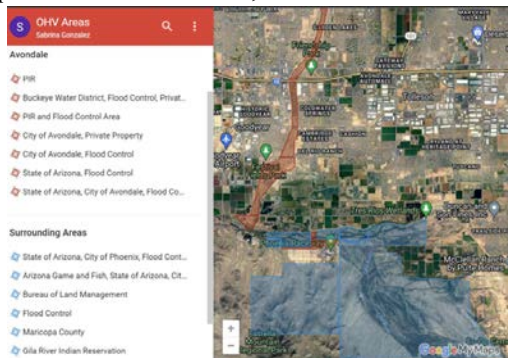

Arizona Office Tourism (AOT), Tread Lightly!, AZ Highways TV and Arizona State Parks & Trails are working to develop an Appreciate AZ campaign for the motorized community. This project funding (\$200,000) will be utilized to compensate Arizona Highways TV for the pre-production, development, and editing of a T.R.E.A.D. focused video series. The Arizona Office of Tourism will be matching this project 100% with \$200,000 which will be utilized for media buys and content creation. Videos will be utilized by all organizations (and future partners, including other state agencies) to better inform the OHV community about responsible use. Deliverables will include both short and long-form videos that can be shared across multiple platforms, examples are provided below:

Supplemental Motorized Grants

Sponsor: City of Avondale Police Department

Project: OHV Education and Enforcement

Request Amount: \$100,000.00 Match: \$15,000.00 Award Total: \$115,000.00

The City of Avondale has had an increase of calls for service related to illegal OHV, firearm use, and target shooting. There are approximately 3,268 single family homes and 3 businesses in the surrounding area that can potentially be affected by the illegal activities. Residents have reported rounds hitting houses nearby and large illegal OHV parties. The City of Avondale Police Department coordinates with other agencies such as Arizona Game and Fish, Bureau of Land Management, Phoenix Police Department and Maricopa County Sheriff's Office to perform education and enforcement. Patrols have been conducted using the Chevrolet 4x4 Tahoe which has periodically gotten stuck in the area due to the extremely soft sandy conditions. We currently do not have the appropriate equipment to be able to patrol the area. We are requesting \$100,000.00 funding for OHV equipment as it would be very helpful to keep up with the calls for service demand by patrolling more efficiently. Citations and education on OHV will help minimize illegal OHV activities. The main goal is to eliminate trespassing and illegal OHV which in turn leads to other illegal activities. Eliminating illegal OHV will make it safer for all involved, residents, officers, businesses, and the individuals participating in illegal activities.
