**Sponsor: Arizona State Parks and Trails**

**Project: Statewide Trails App**

**Awarded Amount: \$670,000.00**

**Match: \$330,000.00**

**Award Total: \$1,000,000.00**

**Choose Your Adventure**

Each of the images below represents a group of specific OHV experiences. Click into the Show Me Rides portal to access rides that OHV Ambassadors have mapped out throughout Arizona and to learn more about becoming an OHV Ambassador! These rides are pre-packed OHV experiences that we've assembled for you! Click on the Arizona OHV Trailheads image to enter a portal that includes a statewide resource to find and use OHV trails and their corresponding trailheads. These trailheads are a great jumping off point to create your own OHV experience.

State Parks is proposing to develop a statewide trail app that will include all designated motorized and non-motorized trails. We anticipate that this app will have several attributes to search. State Parks currently has the data for all of the motorized and non-motorized trails but it has not been updated in several years. We are requesting funds to pay a contractor to develop the application, host the app and be required to keep this information current. The app will be free to all users.

**Project:** River Island Staging Area Phase 2

**Awarded Amount:** \$ 820,966.00

**Match:** \$1,129,034.00 **Award Total:** \$1,950,000.00

RIVER ISLAND OHV TRAILHEAD MASTER PLAN

This project will be the phase 2 of the River Island Trailhead Development project between River Island State Park and Buckskin Mountain State Park next to the River Island Market. Phase 1 is prepared to go to construction which will include fencing, paving, burying current electrical, camp host site, curb and gutter work Information signage, and monument sign in preparation for Phase 2. Phase 2 will include 100% design/engineering plans for all phase two elements. Phase two items include well drilling and installation, restroom building, landscaping, lighting, ramadas, picnic tables, and final electrical hookups for restroom building and camp host. Based on Buckskin Mountain Sanitary District construction schedule, the restroom building will either be connected to the forced main line or be supported by a septic system.

**Project:** Appreciate AZ Campaign

**Awarded Amount:** \$200,000.00

**Match:** \$200,000.00

**Award Total:** \$400,000.00

Arizona Office Tourism (AOT), Tread Lightly!, AZ Highways TV and Arizona State Parks & Trails are working to develop an Appreciate AZ campaign for the motorized community. This project funding (\$200,000) will be utilized to compensate Arizona Highways TV for the pre-production,

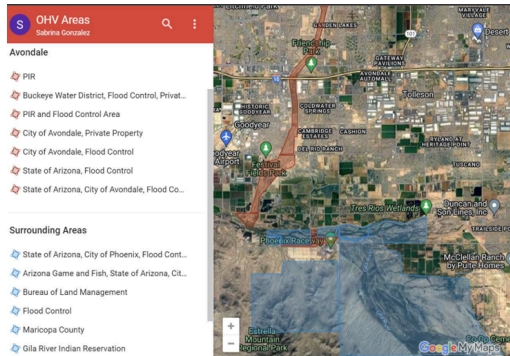

development, and editing of a T.R.E.A.D. focused video series. The Arizona Office of Tourism will be matching this project 100% with \$200,000 which will be utilized for media buys and content creation. Videos will be utilized by all organizations (and future partners, including other state agencies) to better inform the OHV community about responsible use.

**Sponsor: City of Avondale Police Department**

**Project: OHV Education and Enforcement**

**Awarded Amount: \$100,000.00 Match: \$15,000.00 Award Total: \$115,000.00**

The City of Avondale has had an increase of calls for service related to illegal OHV, firearm use, and target shooting. There are approximately 3,268 single family homes and 3 businesses in the surrounding area that can potentially be affected by the illegal activities. Residents have reported rounds hitting houses nearby and large illegal OHV parties. The City of Avondale Police Department coordinates with other agencies such as Arizona Game and Fish, Bureau of Land Management, Phoenix Police Department and Maricopa County Sheriff’s Office to perform education and enforcement. Patrols have been conducted using the Chevrolet 4x4 Tahoe which has periodically gotten stuck in the area due to the extremely soft sandy conditions. We currently do not have the appropriate equipment to be able to patrol the area. We are requesting \$100,000.00 funding for OHV equipment as it would be very helpful to keep up with the calls for service demand by patrolling more efficiently. Citations and education on OHV will help minimize illegal OHV activities. The main goal is to eliminate trespassing and illegal OHV which in turn leads to other illegal activities. Eliminating illegal OHV will make it safer for all involved, residents, officers, businesses, and the individuals participating in illegal activities.

**Sponsor: Lake Havasu City Police Department**

**Project: Law Enforcement OHV Purchase**

**Awarded Amount: \$82,996**

**Match: \$62,628**

**Award Total: \$145,624**

Funds would be utilized to purchase 2 side by sides with LE package including seats, roll cage, suspension, doors and other necessary accessories. The project will be matched with 2 hours of patrol hours. Lake Havasu PD will provide match through two officers who will patrol 2-hour shifts, for a total of 24-man hours per week, once a week for about 6 months. The approximate cost for six months would be \$62,208. The city will also be providing marketing staff time and equipment to record, produce, and distribute public service announcements on desert OHV safety on various social media and website platforms.

**Sponsor: Tread Lightly!**

**Project: Tread Lightly! Arizona Program Managers**

**Award Amount: \$428,400.00**

**Match: \$60,880.00**

**Award Total: \$489,280.00**

The Tread Lightly! requested grant funding to support two program manager positions that will provide a variety of conservation projects and educational outreach opportunities throughout the state. Tread Lightly!'s activities in the state have grown beyond what one person can reasonably handle. The size of the state and the breadth of the activities and issues that need to be addressed have required Tread Lightly! to hire a second Program Manager. The Program Managers' efforts will include the following: attending events to educate the public about OHV safety and outdoor ethics, identify, plan and execute on-the-ground maintenance and restoration conservation projects. Seek out private funding partners and build relationships with local enthusiast groups and powersports dealerships. Coordinate with federal and state public land management agencies on education, conservation and communication efforts

South of Carefree Highway East of Lake Pleasant Pkwy

North of the Vistancia Community

The Peoria Police Department, through the Law Enforcement Grant, will use funds for overtime details for Off-Highway Vehicle (OHV) patrols. These patrols are dedicated to protecting the Peoria desert areas consisting mostly of State Trust land, through education of the OHV laws. If the Peoria Police Department is awarded this grant, it would be utilized for desert patrols. The priority is to educate individuals on how to utilize the land responsibly through State Trust land regulations, state laws, and city codes. The Off-Road Program's goal is to preserve these lands so they can be used for generations to come.

**Project: Range Patrol OHV Equipment**

**Award Amount: \$100,000.00**

**Match: \$5,250.00**

**Award Total: \$105,250.00**

Due to an influx of 9-1-1 generated calls for service in the Public Lands areas, the Pinal County Sheriff's Office has created a Range Unit to deal with the issues of the Public Lands, OHVs and Grazing Range. This unit will utilize a 3-step program to help combat the issues we are now faced with. Education- Range Deputies will hold education programs for the public, through on-site Staging education. Schools, Rental Agencies. Partnering with AZGFD OHV, BLM and USFS LE Officers to join them in combined education programs. Patrol- Range Deputies alone, and in multi-agency details, with the above-named agencies will conduct on site patrol on a consistent basis for visibility, to educate and to warn. Correction- Range deputies will utilize corrective citations, and enforce directly, Arizona Revised Statute Titles 3,17,28,13 on all public lands and OHVs. As a new specialty Law Enforcement Unit within the Pinal County Sheriff's Office and dedicated to a patrol area of approximately 1179 sq miles of Public Lands/OHVs. This money will be used to purchase the following: two LE packaged side by sides, all safety equipment "four-point harness, roll cage upgrade, fire suppression system, LE custom seats" and two transport trailers.

**Project: Red Springs Trail Improvements**

**Award Amount: \$9,025.00**

**Match: \$475.00**

**Award Total: \$9,500.00**

Funding was used to support the fabrication and installation of information kiosks for the Red Spring Trail Staging area. Design, fabrication, and installation of two (2ea) information kiosks for the existing Red Spring Trail staging area. These kiosks provide a significant amount of information to the user community about the Red Spring Trail system. The information posted includes user expectations and behaviors and trail etiquette; important biological, geological, archaeological, environmental statements, and user safety considerations. A Red Spring Trail System map along with a QR code is posted at the kiosk. This allows the user the ability to download the trail system map to the “smart phone” Avenza Map application.

**Award Amount: \$1,294,528.00**      **Match: \$100,000.00**

**Award Total: \$1,394,528.00**

The City of Bullhead City will utilize the funds to develop an OHV Staging Area at the intersection of Silver Creek Rd and Bullhead Parkway. The site will be utilized for parking and off-loading OHV's for use on existing adjacent trail systems. Funds will also be utilized for engineering costs, grading and any other infrastructural improvements. The proposed project will be the first OHV Staging Area in the City of Bullhead City. Provide multiple pull-through parking spaces for RV/trailers, tow vehicles and OHV's to park while utilizing existing adjacent trails. Accessible restrooms, night security lighting, and camp host area are planned. Additionally, the development will see a day-use picnic area with shade structure tables, benches, electrical outlet, and spigot amongst other amenities. The proposed Bullhead City OHV Staging Area is designed to accommodate the following type of motorized vehicles: Dirt Bikes, Off-Road Trucks, Quads (ATV's), Side-by-sides (UTV's), Jeeps and similar 4-WD vehicles. This project will enable the city the opportunity to continuously provide off-road recreation.

**Sponsor: Bureau of Land Management: Lake Havasu Field Office**  
**Project: OHV Program Development**

**Award Amount: \$117,000.00**      **Match: \$77,900.00**

**Award Total: \$194,900.00**

The Lake Havasu Bureau of Land Management Office (LHFO) manages 1.3 million acres of public lands which have wide swaths of adjacent state managed land. The LHFO will purchase three side by sides and two trailers to better access and provide outreach to the off-roading community as well as assisting our state agency partners with sharing their educational message on public lands. Side by side purchases will include two sport models and one utility model. The LHFO intends to utilize these side by sides to better manage public land by: Helping promote and spread educational awareness to the OHV community on both federal and state public lands. Remove trash and debris from OHV recreation areas on state and federal lands (Standard Wash,

Bison Wash, Shea Road, Craggy Wash, AZPT) and provide a presence at public cleanup events. Access and identify OHV trails in need of maintenance, access and provide educational outreach at Special Recreation Permit (SRP) races and other public events (Sand and Water Expo, UTV World Championships, Parker 400). Provide safety and educational courses (ROHVA) to BLM and partner agency personnel on side-by-side usage.

**Project: OHV Area Cleanups**

**Award Amount:** \$288,327.00

**Match:** \$32,826.00

**Award Total:** \$321,153.00

This project addressed the long-standing issues of scattered trash, illegal dumping of household & construction debris, & graffiti painted on rocks & boulders in OHV areas. Since 2020, Arizona has seen a massive increase in the number of people recreating in OHV areas, including new users, & users who are not practicing responsible recreation. As a result, there has been an increase in the amount of trash and graffiti left behind in OHV areas. Funds were used to keep existing trails free from trash & graffiti to ensure they remain open to the OHV community; if these issues were not addressed, land management agencies would have sought to close them.

**Project: OHV Patrollers**

**Award Amount: \$98,900.00**

**Match: \$15,488.00**

**Award Total: \$114,388.00**

Funds will pay for Law Enforcement support for Off Highway Vehicle (OHV) areas on the Globe Ranger District. The scope of work will include patrolling forest roads to educate users on responsible use of national forest lands and enforce federal and state rules and regulations. Patrollers will inspect for proper display of the required OHV sticker and spark arrestors. They will also take measures to deter the public from riding illegal user created routes which includes contacting users, signage, physical barriers. These patrols will increase public awareness of rules and regulations and will be a deterrent for illegal behavior. Patrollers will work with Forest Service, Game and Fish, County and other law enforcement agencies to assist with these educational opportunities.

**Project: Mogollon Rim Wildlife Habitat Fencing Project**  
**Award Amount: \$41,322.00      Match: \$16,120.00**

**Award Total: \$57,422.00**

This project completed to protect high elevation wet meadow systems on the Mogollon Rim to eliminate damage from illegal off road OHV use. These meadows provide much needed moisture and high-quality forage for all wildlife in the area. The meadows, many times, hold water for many months of the year that wildlife depend on. The Arizona Elk Society with our volunteers and in partnership with the Boy Scouts doing their Eagle Scout projects will be purchasing a semi load of 12' treated logs to build log worm fences to stop the encroaching OHV and protect the meadows from further damage. The AES works closely with AZGFD and the USFS to locate important meadows to protect and decide the area of ingress that needs to be fenced.

**Project: Arizona Alpine Trail Master Plan**

**Award Amount: \$316,503.00**

**Match: \$47,920.00**

**Award Total: \$364,423.00**

Arizona Alpine Trail, Inc. (AZAT) is a 501(c)3 organization seeking to develop a contiguous, 700+ mile multimodal loop trail that spans multiple counties and municipalities in east-central Arizona from Payson to Hannigan’s Meadow. State Parks funding will be used to produce a Master Plan that fully describes the AZAT trail, reflecting relevant conditions of the project and implementation approach. Scope of the Master Plan will identify benefits of the trail and the necessary steps to transform the AZAT trail into a sought-out destination. Among those steps are, identifying future trail improvements; ensuring adequate signage; providing maps and information to users; encouraging local business and towns to participate in developing staging areas, trailheads and campgrounds, and finalizing an alignment and associated features agreed to by AZAT, the Forest Service and other state and local communities.

# Fiscal Year 2022

**Sponsor: Mohave County**  
**Project: Law Enforcement**

**Award Amount: \$29,031.00 Match: \$4,929.00**

**Award Total: \$33,960.00**

Funds were used to purchase a Law Enforcement Vehicle for recreational trail law enforcement. It has become more and more important to have a vehicle with off road capabilities due to the additional trail use during the pandemic and Parks receiving Camp Levi back for public use. There are main trails through Hualapai Mountain Park that cannot be reached with the previous Ranger vehicle. Additionally, OHV trail use in the Hualapai Mountains has resulted in an agreement with Bureau of Land Management (BLM) to help patrol BLM lands in emergency situations due to location and staffing.

**Match: \$421,277.80**

**Award Total: \$834,246.05**

BLM AZ is requesting grant funding to develop 4 Travel Management Plans (TMPs). The 4 TMPs will cover approx. 2,655 trails/routes miles in three (3) BLM districts (Colorado River, Gila, and Phoenix District offices). These plans will identify and authorize trails/routes to maintain, develop and manage that address public input, protect natural and cultural resources and result in sustainable recreational motorized (jeeps, ATVs, UTVs, dirt bikes, etc.) and non-motorized (hiking, biking, equestrian, etc.) access and opportunities. These Plans will produce authorized large-scale maps that will form the foundation for digital and print maps, signage, more accessibility, and information kiosks. TMP development will include teams of BLM specialists and contractors evaluating routes, utilizing NEPA, providing cultural and biological assessments, to establish TMP designations, and organize and respond to public and stakeholder comments and concerns.

**Project: Box T Remediation**

**Award Amount: \$106,017.00**

**Match: \$28,211.60**

**Award Total: \$134,228.60**

Box T is a trailhead located on Prescott National Forest land identified in the Verde Trails and Access Plan as a multi-use trail. The trailhead is not formally developed and therefore the trail access point is subject to periodic damage. Motorized use when the natural ground is wet has led to the deterioration of the natural landscape and left rutted out tire tracks. The “trailhead” is located on an unsafe blind curve on Salt Mine Road, making access to the trailhead difficult and unsafe. The project has been pursued and corrected the continued deterioration of the trail access point and enhanced safety.

**Sponsor: Tonto National Forest**

**Project: Travel Management**

**Award Amount: \$525,000.00**

**Match: \$0.00**

**Award Total: \$525,000.00**

This project is to conduct archaeological inventories of all of the proposed new routes, approved OHV areas, and Tot Lots as required by the TNF Travel Management plan. The TNF staff reviewed the results of the evaluations and conduct all the consultation with the Arizona State Historic Preservation Office and consulting tribes in an effort to complete all of the requirements of the National Historic Preservation Act. Fulfilled the requirements of the Travel Management Plan and allowed for the inclusion of the newly approved routes on to the Motor Vehicle Use Maps (MVUM). This MVUM will be the starting point for managing motor vehicle use on the TNF and will allow the Forest to manage motor vehicle use to balance the use with protecting the natural and cultural resources, complying with applicable laws, regulations, and policies, and thereby providing for sustainable motor vehicle recreation opportunities. Moving forward the TNF will be working collaboratively with partners and stakeholders on identifying future program and public needs for including repairs, reroutes, decommissioning, rehabilitation, facilities through future project planning efforts.

**Award Amount: \$395,829.00**

**Match: \$28,944.55**

**Award Total: \$424,773.55**

This project developed a motorized trail program for the Lakeside District that included: an OHV Coordinator, temporary seasonal OHV ranger, archeologist funding for OHV trail NEPA, trail maintenance, and educational signage. Funding was used to establish an effective OHV program in the short-term to coordinate with a variety of agency partners including the Arizona Game and Fish Department, Arizona State Parks, tribal, and local municipalities. In addition, work was conducted with volunteer groups like the OHV Ambassadors and the White Mountain Open Trail Association. Coordination was established for trail maintenance, sign installation, emergency marker installation - maintenance, providing OHV visitor contacts, education, compliance patrols, safety programs, and to implement Travel Management Rule (TMR). These programs have been established through grant funding, the USFS will take over the management and financial responsibility.

**Sponsor: Arizona Game and Fish Department – Region 2**

**Project: LE Utility Terrain Vehicle**

**Award Amount: \$30,000.00**

**Match: \$9,490.00**

**Award Total: \$39,490.00**

Officers in Region 2 have seen a different user group that does not appear to be aware of OHV laws. This behavior has led to an increase in habitat damage by people driving cross-country, mainly through meadows which make up fragile, and critical wildlife habitat. The dramatic increase in the number of UTV’s being used, and the high speeds at which they travel, making it extremely difficult for officers to effectively conduct OHV patrols from their trucks. Funds were used to purchase an UTV as an essential piece of equipment that has greatly increased the Region’s ability to accomplish effective OHV enforcement activities in the backcountry, as well as greatly decreased the time it took to respond to medical emergencies. This grant has provided funding toward a UTV, tri-band radio, and law enforcement lights and siren.

**Sponsor: La Paz County**

**Project: Law Enforcement Grant**

**Award Amount: \$27,331.00 Match: \$4,437.00**

**Award Total: \$31,768.00**

The project allowed the La Paz County Sheriff's Department to dedicate 450 hours of patrol to OHV trails. This enabled OHV dedicated services of 75 hours per month during the winter months when the county experiences an influx of off-road enthusiasts. La Paz County OVH activity primarily occurs in three areas; the Ehrenberg-Cibola strip that includes the Ehrenberg Sandbowl, the La Posa flat, and a public use area bound by the Parker Strip, the Swansea townsite, and Bouse. In addition, La Paz County hosted several annual, major off-road events including the Desert Dash, the Parker 250, and the Parker 425. These events, inviting terrain, and climate attract thousands of visitors every year. These areas, encompassing almost 800 square miles, are currently patrolled on an ad-hoc basis with an emphasis on emergency response.

**Project: Great Western Trail Master Plan**

**Award Amount: \$681,000.00**

**Match: \$0.00**

**Award Total: \$681,000.00**

The Great Western Trail is a proposed multi-use trail that stretches from Mexico to Canada with over 800 miles of riding opportunity in Arizona. The trail crosses multiple jurisdictions including BLM, Forest Service, and State Land. The primary focus of this project is to establish a master plan through the participation of a working group made up of a wide range of stakeholders. In addition, the working group would host several public meetings to gather feedback on the trails proposed path. The monies for this project have been previously obligated by the legislature to allow Arizona State Parks to complete operations tasks. In 2019 the legislature shifted these funds to be invested into establishing a more concrete plan for the Great Western Trail.

**Project: Vermilion Cliffs OHV Enforcement**

**Award Amount: \$29,500.00**

**Match: \$2,000.00**

**Award Total: \$31,500.00**

The Arizona Strip District Law Enforcement Program used funding to purchase a \$29,500 UTV, a trailer, and modifications to the UTV for Law Enforcement functions. The UTV has also been used to monitor authorized and illegal travel routes, ensure OHV sticker compliance, and assist in accessing remote areas. The UTV has been critical in some areas to enhance public safety and aid in search and rescue operations.
