

## Fiscal Year 2024

**Project: Arizona State Parks and Trails**

**Project: 782403 Lake Havasu State Park North Dock and Parking**

**Awarded Amount: \$350,000.00**

**Match: \$0.00**

**Total: \$350,000.00**

This project will bring much-needed repairs to the hardscape surfaces and dock network at Lake Havasu State Park (LHSP). Welcoming more than 500,000 visitors on an annual basis, LHSP is arguably the busiest boat launch facility in Arizona. This traffic volume creates wear and tear on the infrastructure shortening typical windows of useful life. The North Dock is quickly deteriorating and has received numerous significant repairs.

**Project Sponsor: Arizona State Parks and Trails**

**Project: 782402 Cattail Cove Pontoon Boat Replacement**

**Awarded Amount: \$150,000.00**

**Match: \$0.00**

**Total: \$150,000.00**

Funding will be used to purchase a new, custom pontoon boat to be used by the park and volunteers on Lake Havasu. The work tasks include support of outdoor recreation along the shoreline of Cattail Cove State Park as well as neighboring areas on Lake Havasu. The workload includes cleaning, maintaining,

enforcement, stewardship, and rule enforcement in a heavily used portion of Lake Havasu. The new boat will replace an existing vessel that is beyond its useful life.

10%	20%	30%	40%	50%	60%	70%	80%	90%	100%

**Project: Alpine Fire District**

**Project: 782401 Rescue Watercraft and Equipment**

**Awarded Amount: \$66,019.00**

**Match: \$9,003.00**

**Total: \$75,022.00**

The Alpine Fire District identified the need for updated water rescue equipment due to the severely outdated equipment on lakes/ivers in our response area. The best way to fill our need is the acquisition of two Sea-Doo personal watercraft, two trailers, four rescue helmets, four dry suits, four pairs of water rescue gloves, four rapid rescuer PFDs, two jet tech rescue sleds, and two river/ice rescue boats. This equipment will cover all four seasons that our response area experiences and will further strengthen our interoperability responses with neighboring agencies (Greer Fire District & Apache County Sheriff's Office)

**Fiscal Year 2023**

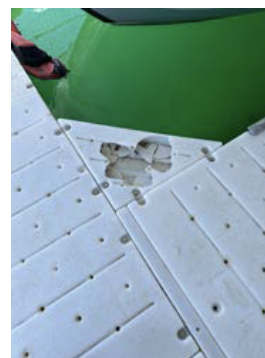

**Sponsor: Arizona Game and Fish Department**

**Project Title: 782308 Contact Point Dock Replacement**

**Awarded Amount: \$800,000.00**

**Match: \$0.00**

**Total: \$800,000.00**

Funding will be used to replace the existing boat docks at Contact Point. These docks are strictly for law enforcement boats and a fire boat at Lake Havasu. The current dock structure consists of an 80 ft gangway

and 25 slips. Approximately half of the slips would be covered slips. The slip fingers would be widened to provide greater stability to the dock as well as provide widened paths for officers and members of the public that the officers bring in for processing.

**Sponsor: Patagonia State Park**

**Project Title: 782307 SLIF Improvement Project**

**Amount Awarded: \$530,000.00 Match: \$0**

**Total: \$530,000.00**

The proposed funding will be used for three items. Replacing the existing boathouse housing their boat. The improvements will include an upgraded boathouse to securely store the boat and also provide a lift for the boat making it much easier and quicker to not only load the boat with needed supplies but also prevent multiple launches from the ramp. The second item will be improvements to the dock where our floating restrooms are located. The distance between the surface of the lake to the top of the dock makes it very difficult and dangerous for boaters to get onto and off the dock. Finally, the existing fish cleaning station is 35+ years old and is non-functional and a hazard to the user. The existing station is an environmental and health concern and funding will be used to replace this station.

**Sponsor: Mohave County Sheriff's Office**

**Project Title: 782306 Boats and Sonar**

**Awarded Amount: \$800,000.00 Match: \$0.00**

**Total: \$800,000.00**

Funds will be used to purchase watercraft (2), ROV, and a side scan sonar. This funding is instrumental for the continued public safety of the waters of Mohave County. This equipment will also benefit other agencies such as Arizona State Parks, Arizona Game and Fish, San Bernardino County Sheriff's Office, Lake Havasu City Police Department, Lake Havasu City Fire Department, Bullhead City Police Department, and La Paz County Sheriff's Office.

**Sponsor: 782305 Coconino County Sheriff's Office**

**Project Title: Replacement Boat and Jet Skis**

**Awarded Amount: \$270,000.00**

**Match: \$0.00**

**Total: \$270,000.00**

Funding will be used to purchase two jet skis with a trailer and use these vessels for water rescues and boating safety education and enforcement. The Sheriff's Office also works with the Arizona Game and Fish Department to provide boating safety classes in the Page area and water safety classes for elementary students. For several years, the Sheriff's Office has partnered with other water law enforcement agencies to host an Operating Under the Influence (OUI) checkpoint on Lake Powell. The goal of our boating program is to increase public safety by removing intoxicated and under-influenced boaters from the lake while educating the public.

**Sponsor: La Paz County**

**Project Title: 782304 La Paz County Park Structural Upgrade**

**Amount Awarded: \$180,053.00**

**Match: \$0**

**Total: \$180,053.00**

The La Paz County Park is requesting funds for upgrades after years of weather/erosion to the lagoon area and upgrade to our waterfront ramadas. Funds will be used to repair the pedestrian walkway and boat launch in the La Paz County Park Lagoon. Several events a year and thousands of guests use the lagoon for events. Funding request is also for a walkway over the water which is buckling and taped off from use,

unsafe for pedestrians and people with disabilities. In addition, the boat launch is cracked and drops off dangerously at the end and funding will be used to remediate this issue. The final request is to purchase a 600-amp electrical panel and 2000 feet of electrical wire to complete the project that will bring electricity/pedestals to the waterfront ramadas at the Park. This was originally requested as part of an LWCF funded project but due to delays in the supply chain and the lack of matching funds, will use SLIF to complete the project.

**Project Title: 782303 Boat Launch Repair Project**

**Amount Awarded: \$215,150.00**

**Match: \$11,550.00**

**Total: \$226,700.00**

The existing boat ramp located in Parker is failing. The funding will be used to make improvements to the existing docks, ramp into the river, and the existing parking lot which requires resurfacing including putting ADA striping in this area. The final request is to purchase a new 300 HP motor which would be used for their rescue boat. Finally, the grant is requesting funding for signage that would be at the launch site with boating information along the River.

**Sponsor: Lake Havasu City**

**Project Title: 782302 Site Six Ramp/Seawall Project**

**Amount Awarded: \$800,000.00**

**Match: \$446,080.00**

**Total: \$1,246,080.00**

This project is located on the Colorado River in Lake Havasu City. The current launch ramp at Site 6 is deteriorating and in need of replacement. This project will remove the existing ramp and replace it with a new ramp in the same location. The grade of the ramp will also decrease allowing for boats to be

removed from the water more easily. The end of the ramp will also be groomed so it doesn't drop off so abruptly. The current seawall is damaged and must be replaced in order for the launch ramp to be replaced which is also part of the funding request.

10%	20%	30%	40%	50%	60%	70%	80%	90%	100%

**Sponsor: Mohave Valley Fire District**

**Project Title: 782301 Multi-use Watercraft Replacement**

**Amount Awarded: \$356,814.00      Match: \$0.00      Total: \$356,814.00**

**Amendment Award: \$30,686.00      Match: \$0.00      Total: \$30,686.00**

This amendment was requested for costs related to the final bid document for the watercraft.

Mohave Valley Fire District is located on the Colorado River between Lake Havasu City and Davis Dam. Mohave Valley Fire District works with several other agencies located along the Colorado River with water-based emergencies. Many times, the Mohave Valley Fire District is the first to arrive on the scene. Their current 1997 Boston Whaler has exceeded its life expectancy which was designed for law enforcement, provides no access to victims in the water, has poor lighting, no navigation, has failing communication and emergency lighting, and a pump is mounted in the front of the boat which makes water rescues much more difficult. The request for funding to purchase a new boat will protect resources throughout the Colorado River from Davis Dam to Lake Havasu.

### Fiscal Year 2022

**Project Sponsor: Arizona Game and Fish**

**Project: 782210 Parker Canyon Lake Boat Launch Improvement Project**

**Amount Awarded: \$978,089.00      Match: \$631,000.00      Total: \$1,609,089.00**

Construct a new concrete boat launch at Parker Canyon Lake. This will include the boat launch, turn around at the top of the ramp, make-ready area, ADA parking (the current facility is not ADA compliant),

access road to the new launch, a courtesy dock, and lighting for the boat launch area. Additionally, some of the funds will be utilized to assist in completing environmental compliance. It is anticipated that this project will alleviate the current congestion at this facility increasing the use of the facility. Additionally, this will provide needed ADA access to this facility.

10%	20%	30%	40%	50%	60%	70%	80%	90%	100%

**Project Sponsor: Maricopa County**

**Project: 782209 Wind Warning System**

**Amount Awarded: \$620,791.00      Match: \$48,766.00      Total: \$669,557.00**

The current wind warning system equipment for Lake Pleasant, one of Maricopa County’s busiest lakes, has become outdated (25+ years old), Newer, more up-to-date technology is available to enhance and improve the overall warning system to make boaters and recreationists aware of dangers caused by these winds. Funding will be used to replace the existing wind warning equipment with current technology standards and improve the overall system by adding electronic signage to further provide warning information to the boating public.

10%	20%	30%	40%	50%	60%	70%	80%	90%	100%

**Project Sponsor: Bullhead City Police**

**Project: 782208 Water Safety Expansion Boat and Jet Ski Purchase**

**Amount Awarded: \$302,134.00      Match: \$0.00      Total: \$302,134.00**

**Amendment Request: \$16,234.00      Match: \$0.00      Total: \$16,234.00**

Additional funding was needed to cover cost increases once the final bid went out.

The Bullhead City Police Department has expanded its Water Safety Program on the 13 miles of the Colorado River that it patrols. Bullhead City Police Department purchased two (2) Rogue Jet boats and four (4) Yamaha Jet Skis (or equivalent jet skis). The two boats and four jet skis are being used to patrol the Colorado River during May and September every year. The boat is a 21' jet boat that is fully marked and equipped police boat used for enforcement, safety checks, disabled vessels, and a variety of other duties. These have replaced its aging fleet which now has become reliable.

**Project Sponsor: La Paz County Sheriff's Office**

**Project: 782207 La Paz County Sheriff's Office Waterway Safety Center Improvement**

**Amount Awarded: \$30,128.00      Match: \$0.00      Total: \$30,128.00**

The La Paz County Sheriff's Office Waterway Safety Center had their HVAC system replaced. The Waterway Safety Center is a working office for the La Paz County Sheriff's Office, Arizona Game and Fish Dept, BLM, and the San Bernardino County Sheriff's Office who all share the responsibility of patrolling the Colorado River in La Paz County. Air Conditioning is vital to this office for all personnel who work the Colorado River in La Paz County and for the equipment inside this center, such as Intoxilyzers which were not a heat-tolerant instrument.

**Project Sponsor: Coconino County**

**Project: 782206 Boater Education and Law Enforcement Grant**

**Amount Awarded: \$387,200.00      Match: \$0.00      Total: \$387,200.00**

The County's Boating Safety program operates primarily from the Sheriff's Office Page Substation and services Lake Powell and portions of the Colorado River. The County uses vessels for water rescues and boating safety education and enforcement. The Sheriff's Office also works with the Arizona Game and

Fish Department to provide boating safety classes in the Page area and water safety classes for elementary students. The accomplished goal of the boating program was to increase public safety by removing intoxicated and under-influenced boaters from the lake while educating the public. The County's 2004 19-foot Boston Whaler needed an engine replacement and has since used funding from the Arizona Game and Fish Department and order a new engine. The County's 27-foot all-weather Boston Whaler needed replacement and the boating program greatly benefited from having a new boat.

10%	20%	30%	40%	50%	60%	70%	80%	90%	100%

**Project Sponsor: Bullhead Fire**  
**Project: 782205 Fireboat Purchase**

**Amount Awarded: \$275,000.00      Match: \$0.00      Total: \$275,000.00**

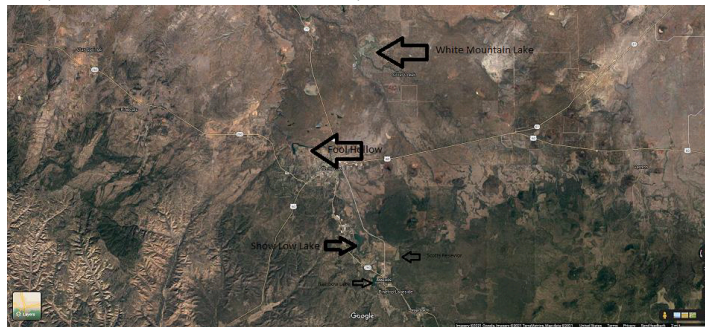

Bullhead City, located on the Colorado River, is a major attraction for visitors who come to stay in Laughlin, NV. A portion of the river sees a heavy flow of jet skis and tourists. As a community that sees over 2,000,000 seasonal travelers annually, the city has almost double the national average in calls for service per capita. Bullhead needs a fireboat that can adequately sustain the need for service delivery. The boat will assist with water rescues, body recoveries, structure and wildland fires, and vessel assists. The fireboat will be staffed with trained personnel who will assist and respond to medical emergencies, body recoveries, fire along the river, and other various calls as needed.

10%	20%	30%	40%	50%	60%	70%	80%	90%	100%

**Project Sponsor: Timber Mesa Fire and Medical District**  
**Project: 782204 Rescue Boats**

**Amount Awarded: \$53,280.00      Match: \$5,860.00      Total: \$59,140.00**

The Timber Mesa Fire & Medical District identified a gap in service delivery as it relates to lake rescue. It has been determined that the best way to address this gap is the acquisition of four rigid inflatable rescue boats. The acquisition of four rescue boats has allowed one boat to be placed at the three most prominent

bodies of water in the district during times of projected demand and have one boat trailered for response to any of the smaller bodies of water that exist in the district and surrounding region. There is no other agency prepared to respond to accidents or incidents that occur on any of the mountain lakes. The bodies of water that have been identified in the risk assessment include Fool Hollow Lake, Show Low Lake, White Mountain Lake, Rainbow Lake, and Scott's Reservoir. TMFMD also supports several other fire districts that have similar risks and could benefit from this increased response capability.

**Project Sponsor: Mohave County Sheriff**

**Project: 782203 Replacement Boats**

**Awarded Amount: \$800,000.00**

**Match: \$0.00**

**Total: \$800,000.00**

The Mohave County Sheriff's Office is mandated to provide law enforcement and public safety services on all lakes and rivers within its border. Over the past 12 years since SLIF funds were not available, their fleet of watercraft has become dilapidated and outlived their life expectancy. The county has decommissioned 11 watercraft and has reduced the current fleet to 9. These watercraft are aged and in disrepair and replacement is necessary and required. The Mohave County Sheriff's Office sought Metal Shark boats that are specifically designed for law enforcement and public safety use.

10%	20%	30%	40%	50%	60%	70%	80%	90%	100%

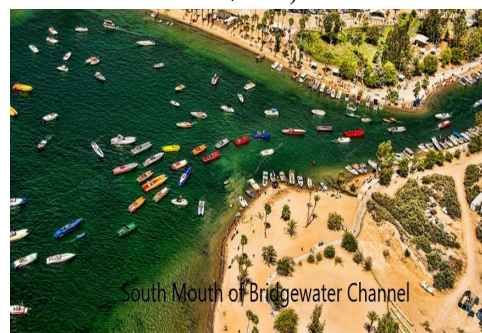

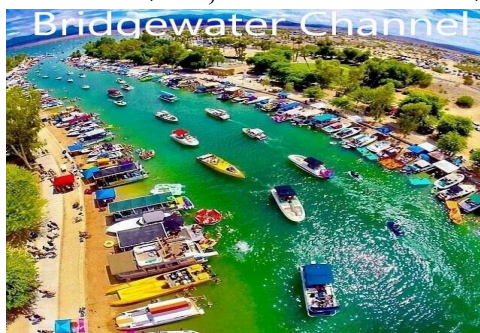

**Project Sponsor: Lake Havasu City**

**Project: 782202 Public Safety Boats and Equipment**

**Awarded Amount: \$800,000.00**

**Match: \$0.00**

**Total: \$800,000.00**

Lake Havasu City Police Department is requesting funds to purchase two new boats and two replacement motors, which will ensure boating safety through the Bridgewater Channel and on Lake Havasu. The requested replacement boat would allow a faster response by providing the capability to carry all gear and

personnel while responding in remote areas. Funds will also replace two aging motors with two high-power motors in their fleet and will ensure reliability, extend the useful life, and mitigate increasing maintenance costs. The Lake Havasu City Fire Department will replace its 15-year-old Fire Rescue Boat and boat lift. The new boat will be a thirty-foot modified v-hull landing-style craft equipped with twin 300 HP outboard engines. It will be equipped with modern navigational electronics, a fire/marine band radio system, and a 1000 GPM fire pump. The existing boat lift system will also be replaced to accommodate the new boat.

**Project Sponsor: Bullhead City Police Department**

**Project: 782201 Rogue Jet Boatworks**

**Amount Awarded: \$106,000.00**

**Match: \$0.00**

**Total: \$106,000.00**

The money received was used by Bullhead City to purchase one (1) new patrol boat. The boat will be purchased from Rogue Jet Boatworks. The monies used to purchase this boat and the grant have greatly reduced the budgetary strain for the Bullhead City Police Department and allowed the expansion of their fleet at considerably less cost increasing public safety, response, and enforcement on the waterway. It has replaced an aged vessel that had approached the end of life and continues to provide continual service on the water.

10%	20%	30%	40%	50%	60%	70%	80%	90%	100%
