If you send a regular email, in this instance to mrogers@azstateparks.gov, Mickey will receive the email and although he may know the sponsor, will not know the grant number, funding source or year as we have our 200 active grants and not using webgrants for correspondence, will cause staff quite a bit longer to respond.

Mickey would receive this email from the system "grantstaff@azstateparks.gov and it identifies the project number 642205 so we could quickly go into webgrants, find the specific project and respond in webgrants directly to the inquiry.

to me

{Sent By: Mickey Rogers}

Got it, thanks!

What is this?

Thank you!

Reply

Forward

This is what it looks like once we open this. If we were to reply directly to this email and not use the system it goes into our general email account.

The screenshot shows an email inbox on the left with various messages. On the right, a multi-account management popup is open, displaying the user's profile and a list of accounts. A red arrow points from the 'grantstaff.azstateparks.gov' email in the inbox to the 'Grant Staff - AZPARKS' account in the popup.

Account Name	Account ID	Delegation Status
Grant Staff - AZPARKS	grantstaff@azstateparks.gov	Delegat...
OHV - AZPARKS	ohv@azstateparks.gov	Delegat...

This is the generic account the email would go to if you replied directly to the "grantstaff" email instead of using webgrants. Due to the volume of regular email, it may be days before we check this account or the OHV account which Mickey also has access to. Although all grant staff have access to this generic account, with their duties, it also may be days before anyone looks at these which is why we stress to use the system for a much quicker response.

{Sent By: Mickey Rogers}

This is a sample of an email in the granstaff generic email account. Once staff responds to any of these emails, we do not respond using this account. We have to download this email as a pdf, put this in our "non-communication log as an attachment, then go to the intersystem grantee correspondence to reply. The will allow staff and the sponsor to see all correspondence related to the specific grant. "

-- The same thing would happen if you sent an email directly to mrogers@azstateparks.gov asking a question about your grant. We would have to determine what the grant is, download the email in our non-system communication log then respond to **Mickey Rogers** Chief of Grants and Trails in webgrants.

This is our non-communication log, we track all calls, meetings and emails not sent from webgrants. We then would have to respond to this in webgrants.

[Return to Top](#)

USING WEBGRANTS FOR COMMUNICATION WILL ALLOW A QUICKER RESPONSE TO YOU EMAIL, ALLOW OTHER STAFF TO SEE COMMUNICATION TO YOUR PROJECT AND ALSO IF THERE IS A NEW PROJECT CONTACT BEFORE THE PROJECT IS COMPLETE, THEY WOULD BE ABLE TO LOOK AT ALL OF THE CORRESPONDENCE AND GET UP TO SPEED ON MUCH QUICKER. WE WOULD GREATLY APPRECIATED USING THIS COMMUNICATION AS WE EXPECT ANOTHER 80-100 NEW PROJECTS TO BE APPROVED IN THIS COMING FISCAL YEAR.
