Subject: 2022 Heritage Fund Environmental Education Grant Application(s)

Background:

The Heritage Fund Environmental Education grant provides matching funds to develop and promote outdoor and environmental protection programs related to outdoor recreation. A total of \$500,000.00 was appropriated for the Environmental Education program during the 2021 Arizona State Legislative session.

A project sponsor may apply to up to 20% of these appropriated funds or \$100,000.00.

Recommendation:

Subject: 2022 American Rescue Plan Act (ARPA) Applications – Local, Regional, and State Parks (LRSP)

Background:

The American Rescue Plan Act (ARPA) funding provides funding to assist facilities that were impacted during COVID. Statistically, the use of outdoor recreation nationwide increased over 20% during the peak of COVID. Outdoor facilities including local parks and trails provided safe socially distanced spaces for families and children to go during this pandemic. They also provided essential benefits to mental and physical health which is specifically defined in the Rescue Act guidelines. The focus of these funds at these facilities is for sewer/water upgrades, broadband and at facilities within neighborhoods in areas that have been identified as underserved communities. These funds are available loosely in the same categories as the appropriated Heritage Funds. A total of \$5,000,000 was made available for this program. These grants require no match and must be completed within two years of the funds being awarded. AORCC requested one project be tabled at their last meeting requesting more information at a future meeting.

Recommendation:

Arizona State Parks and Trails Grant Staff and the Governor’s Office reviewed this ARPA LRSP application and made recommendations based on ARPA eligibility.

Subject: 04-00766 – City of Show Low Frontier Park Project Amendment

Background:

In fiscal year 2020, the Arizona State Parks Board awarded the City of Show Low \$600,000.00 to develop a new inclusive playground and splashpad. The award to the City of Show Low was delayed several months with the National Park Service due to their backlog of projects. This delay caused a significant increase in construction costs for this project once bids were finalized. The City of Show is requesting a \$153,954.00 increase to their project award to cover these expenses. The funding increase will be matched with their funds.

Recommendation:

Arizona State Parks and Trails Grant Staff reviewed the request for amendment to project 04-00766 and have made recommendations based on project need and funding availability.

2022 Motorized Grant Applications

Arizona State Association of 4 Wheel Drive Clubs – Information and Communication Grant Extension Funding Request – \$89,891.00

The infographic is divided into several sections. The top left section, 'Arizona OHV Grant Program', describes the program's goals and lists funding priorities: 60% for trail projects, 25% for signage and maps, and 15% for enforcement and education. The top right section, 'Required Equipment for OHVs', lists safety features like mirrors, seatbelts, and fire extinguishers. Below that is 'Arizona State Land Permit', which explains the permit process and where to obtain one. The bottom left section, 'Arizona OHV Decal Requirements', details the decal application process, including the need for a registration and insurance. The bottom right section, 'Patagonia OHV Area', provides contact information for the local contact, Steve Yarn, and lists the association's website and social media links. The infographic also includes QR codes for downloading the Avenza Map App and scanning for the Motor Vehicle Use Map.

This project is a continuation of two previous Information and Communications grants. Funding will allow the sponsor to continue attending land manager, club, and group meetings. Funding will allow the sponsor to continue to represent OHV collaborative and stakeholders during meetings with the USFS, BLM and G&F and develop new partnerships. Project will continue to provide maps and information to businesses, dealers, and visitors centers. Funding will also be used to continue the development of small-scale maps depicting OHV areas located on land managed by the USFS and BLM.

Funding will also be used to continue work on the Adopt A Road program, and resume work with Coronado and Coconino National Forests along with the State BLM Office, the Hassayampa and the Gila field Offices and coordinate signing projects including route markers, kiosk and other on the ground information.

Tonto Recreation Alliance (TRĀL) – Tonto OHV Trail Management 2022 Funding Request – \$309,026.00

Funding will allow TRĀL to continue OHV trail inspections, trail signing, maintenance, and public education on the Tonto National Forest. With the Tonto Travel Management Plan now complete, TRAL proposes publishing a basic interactive OHV trail map of the Tonto and will continue to expand and enhance its content. This includes adding points of interest, “Best of the Tonto” trips described in detail, information about forest resources and helpful trail status. TRAL has been working with the Tonto on public education about forest resources using area specialists to promote a sense of stewardship within the OHV community.

Through these existing and expanded programs, TRAL will monitor the 3000 miles of OHV useable roads and trails in the Tonto approximately every 3 years, inspect and maintain the 3500+ route markers, complete trail repairs with hand tools and volunteer labor, and assist the forest with other projects such as kiosk installation, fence repair, etc.

La Paz County – Bouse County Park Masterplan Funding Request – \$299,946.00

Funding will pay for an Engineering and Environmental Design firm to provide professional design services for the existing Bouse County Park project, providing landscape architecture and civil engineering design services. This is a phased project; the first phase will be the masterplan for the park. This park is already being used by OHV enthusiasts and is in need of significant upgrades. With the Master Plan completed, La Paz County will be requesting funds for many of these improvements.

**Arizona State Parks and Trails – Greater Sedona OHV Management Collaborative
Facilitation
Funding Request – \$50,000**

Arizona State Parks and Trails is seeking funds to provide facilitation services to the Greater Sedona Recreation Collaborative. This will be a partnership between Arizona State Parks and Trails, the Coconino National Forest, City of Sedona, Sedona Chamber of Commerce and Tourism Bureau, Yavapai County and the Arizona Game and Fish Department to address motorized recreation impacts in residential neighborhoods and develop a place based recreation collaborative to ensure continued, regional coordination and action on these and other recreation issues in the greater Sedona / Red Rock area.

Heritage Fund Environmental Education Grant Applications

**Sedona Red Rock Trail Fund - Program Director
Funding Request – \$99,400.00**

The SRRTF works in partnership with the Red Rock Ranger District (RRRD) and the community to 1) educate and inform the public regarding trail use and management and 2) raise funds to maintain and enhance the non-motorized trails near Sedona and the Village of Oak Creek.

This grant request, combined with other funding sources, will be used to fund full time professional paid staff that will run the SRRTF's operations while educating and informing the public on the importance of trail maintenance and safe, responsible trail use. Currently, the SRRTF is run by volunteers. Full time paid staff allows for increased focus and efficiency in promoting and educating the public regarding trail use and management in one of the most heavily used hiking areas in Arizona. The responsibilities of the paid staff would include meeting with meeting with the FS, local businesses, the City of Sedona, Yavapai and Coconino Counties, Sedona Chamber of Commerce & Tourism Bureau as well as other like-minded non-profit organizations, creating and promoting safe and responsible trail use and managing a website.

**Tread Lightly! – Program Coordinator
Funding Request – \$100,000.00**

This funding will support a comprehensive statewide campaign incorporating ethics education and stewardship project components. In order to complete program objectives, Tread Lightly! will hire a program manager for the state of Arizona.

Tread Lightly!'s Executive Director has been managing the Arizona State program since his relocation in 2021. The program's success and growth have put significant strain on the organization's staff. Demand has grown to such a point that the program requires a dedicated staff person. A Tread Lightly! Arizona Program Manager will allow Tread Lightly! to provide adequate attention to the Federal and State land management's critical need of providing outdoor ethics education, outreach and stewardship opportunities.

**City of Peoria – Leave No Trace Steward Training
Funding Request – \$6,118.00**

This grant will fund the initial roll out of the Leave No Trace awareness program to Peoria's river and trail stewards, Park Rangers and the public. The course will teach participants about the 7 Leave No Trace principles and why they are important and how the participants can share the Leave No Trace message with trail or park users they encounter. The money will be used to pay for instructors, training material and to create publicity for the training classes. The aim is to train 80 people spread over 4 (3 hour) sessions of 20 people each.

American Rescue Plan Act (ARPA) Grant Applications

**Local, Regional and State Park
City of Nogales – Sky/Hohokam Park Lighting Project
Funding Request – \$20,037.00**

City of Nogales is requesting funds to provide environmentally friendly lighting fixtures at one of the city's most popular soccer fields. Sky/Hohokam Field has no lighting, making it unusable after dark. Currently, there is only one other city soccer field in Nogales with lighting. This funding will ensure the Sky/Hohokam field is well lit and provides more safe outdoor recreational activities for the Nogales communities. The need for safe outdoor recreation spaces has grown in Nogales since the pandemic. Social distancing and outdoor recreation are more important now, and ARPA funding will ensure the city is able to provide more safe and accessible soccer fields in Nogales.

Historic Preservation
Town of Superior – Superior Multi-Gen Center HVAC
Funding Request – \$191,783.00

This project will create isolated HVAC systems for each public recreation space inside the historic superior high school, slowing and preventing the spread of covid. A Dedicated Outside Air unit will provide a constant flow of clean outside air to avoid the recirculation of air. The purpose of this project will be to repurpose the building, built in 1926, as community multi-generational center.

Non-Motorized Trails
City of Kingman – White Cliffs Connector Trail
Grant Request – \$99,000.00

The City of Kingman proposes to construct .8 miles natural surface trails to accommodate non-motorized users including; hikers, mountain bikers and equestrians. The trail will connect to several existing trails, link the City of Kingman Downtown area to the Uptown area near the Cerbat Cliffs golf course.

The Conservation Corps team will be constructing the trail. Because of the steep nature of the cross-slope the trail will need to be armored for large portions which requires extra time. Due to the amount of required rock work to complete the trail it is expected to require 12 weeks to complete construction.
