Recently Submitted Non-Motorized Applications

Verde Valley Archaeology Center – Native American Heritage Trail Improvements

Requested Amount - \$150,000

Verde Valley Archaeology Center is requesting funds to improve the Native American Heritage Trail, which will repair damage caused by monsoons and vandals driving trucks on the trail but primarily to make the trail fully ADA (wheelchair) compliant, and provide a concrete ADA parking lot pad. Funding will also be used to develop a permanent two-stall ADA compliant restroom to replace the current portable ADA toilet. The Center property in Camp Verde contains a prehistoric pit house village. While one pit house was excavated, the Center decided to leave the property undeveloped and designated as a Native American Heritage Preserve with an educational pathway and garden. The .41-mile pathway is part of the Verde River "String of Pearls" system along the Verde River.

Arizona Historical Society - Pioneer Museum ADA Trail and Signage

Requested Amount - \$70,058.00

Funds will be used to develop an accessible trail and install 17 interpretive signs to educate visitors about the historic features at the Arizona Historical Society's (AHS) Pioneer Museum. AHS propose to create 1,300 feet of accessible soft-surface trail that passes through the property to connect visitors to the features on the property. The design relies upon elevating the trail surface with a combined 4 inches of aggregate material to achieve enough tread-width for accessible trails. Resting platforms have been designed at all grade change transitions and points of interest along the alignment to enhance the user experience and ensure that educational components of the Pioneer Museum grounds are integrated into the trail.

Legends of Superior Trails – LOST Trailer, Tools and Training **Requested Amount - \$7,498**

Grant funds will be used to purchase a trailer, which will allow maintenance crews to get to the trails more efficiently, hence more servicing more trails, where the crew will identify any needed trail improvements, repair erosion which might pose a danger, clear debris and maintain safe, clean, quality trails and recreation for all visitors. A 2-day training session with a trail consultant, will include both classroom and outdoor education on tool selection and safe operating techniques, trail design, maintenance and team coordination. The tools purchased will provide the crew with the correct implements needed for trail work and the hands-on training will not only teach proper usage and selection of tools, but will also prevent injury. This safety and environmental education program grant, would assure that more trails will be efficiently maintained and restored.

Tucson Audubon Society – Cuckoo Corridor Trail Signage **Requested Amount - \$2,925**

The Cuckoo Corridor for Patagonia is a newly created 0.25-mile connector trail between the Patagonia Montessori Elementary School and Tucson Audubon's Paton Center for Hummingbirds. The trail contributes to a 6.3-mile continuous walking and nature-viewing experience in the town of Patagonia. Tucson Audubon's Cuckoo Corridor project connects multiple popular community walking trails in Patagonia, and endeavors to provide an environmental education opportunity in the form of new interpretive signage. With the funds received, Tucson Audubon will design and install one interpretive panel that introduce the trail, and provide pamphlets guiding users through 30 interpretive stations. The stations will include QR codes that link to audio files to provide interpretation in multiple languages and for users with visual impairments. These stations will highlight ecological points of interest, and will provide opportunities for inclusion in Montessori school curriculum, as well as content for visitors of all ages. Tucson Audubon will collaborate with an existing volunteer corps of Patagonia-area residents to install the trail head panels and numbered signs.

Recently Submitted Motorized Applications

Town of Camp Verde – Greif Hill Trailhead

Requested Funding – \$220,600

Grief Hill Trailhead has been designated in the Prescott National Forest's Verde Trails and Access Plan as a regional, multi-use trailhead. It will serve an extensive network of motorized and non-motorized trails, as a connection for the Black Canyon National Trail and as a hub for a series of loop trails, all of which are included in the VTAP as part of the Grief Hill Planning area. Due to the planned uses, the trailhead will have approximately a two-acre footprint. It will include a double-vault restroom, four picnic ramadas with concrete picnic tables, and grills- all of which will be ADA Compliant. There will also be a kiosk at the trailhead, which will feature information about the trail, interpretive panels, and safety information panels. The trailhead will feature a horse walk-through gate and roadway cattle guards, in addition to three rail pipe fencing. Part of the planned work on this trailhead includes the minor re-alignment of one Forest Service Road, and the addition of two additional informational trail kiosks at trail (at the junction of FS 545/Cherry Creek Rd and the access point to trail 546 on Cherry Creek Rd.).

Mohave County – Law Enforcement Equipment

Requested Funding - \$29,031.00

This grant would fund a Law Enforcement Vehicle for recreational trail law enforcement. It has become more and more important to have a vehicle with off road capabilities due to the additional trail use during the pandemic and Parks receiving Camp Levi back for public use. There are main trails through Hualapai Mountain Park that cannot be reached with the current Ranger vehicle. Additionally, OHV trail use in the Hualapai Mountains has resulted in an agreement with Bureau of Land Management (BLM) to help patrol BLM lands in emergency situations due to location and staffing.
