## 2022 Motorized Grant Applications

### Tonto National Forest: Cave Creek Ranger District – Travel Management Heritage Inventories

Funding Request – \$525,000.00

Project Score – 19

The Travel Management planning effort on the Tonto National Forest (TNF) requires that prior to posting any approved new routes or OHV areas on the Motor Vehicle Use Maps, archeological inventories and evaluations must be completed in accordance with Section 106 of the National Historic Preservation Act to identify and address any potential effects to cultural resources from motor vehicle use in these areas.

The scope of this project is to conduct archeological inventories of all of the proposed new routes, approved OHV areas, and Tot Lots as required by the TNF Travel Management plan.

The TNF will use the funds to contract with a private cultural resources management firm to conduct the inventories and evaluations.

The TNF staff will review the results of the evaluations and conduct all the consultation with the Arizona State Historic Preservation Office and consulting tribes in an effort to complete all of the requirements of the National Historic Preservation Act. This will then fulfil the requirements of the Travel Management Plan and allow for the inclusion of the newly approved routes on to the Motor Vehicle Use Maps (MVUM).

This MVUM will be the starting point for managing motor vehicle use on the TNF and will allow the Forest to manage motor vehicle use to balance the use with protecting the natural and cultural resources, complying with applicable laws, regulations, and policies, and thereby providing for sustainable motor vehicle recreation opportunities.

Moving forward the TNF will be working collaboratively with partners and stakeholders on identifying future program and public needs for including repairs, reroutes, decommissioning, rehabilitation, facilities through future project planning efforts.

**Arizona State Parks and Trails – River Island Staging Area  
Funding Request – \$2,003,442.00  
Project Score – 15**

RIVER ISLAND OHV TRAILHEAD MASTER PLAN

Arizona State Parks is proposing to develop a new trailhead within River Island State Park in the vicinity of Parker in La Paz County, Arizona. The goal of the project is to provide Off Highway Vehicles (OHV) access to the mountain trails south of State Route (SR) 95. The land for the proposed development is owned by Arizona State Parks; no additional land acquisition will be required. The proposed project area footprint of approximately 21 acres. Under contract to Arizona State Parks, J2 Engineering & Environmental Design (J2) will develop a master plan for the project.

Project components will include construction of a day-use area, restrooms, parking areas, drinking fountains, camping and Recreational Vehicle (RV) spaces, shower facilities, shade structures, and signage; installation of new utilities—including water, sewer, and electrical—as well as construction of an on-site treatment facility for sewage and wastewater—also are planned. The site currently has several standing storage units and a convenience store/gas station, which will be removed as part of the project. Potential roadway modifications to existing SR 95 may be required to facilitate ingress and egress to the site.

## 2022 Supplemental Grant Applications

### Cottonwood Police Department – Law Enforcement Equipment Funding Request – \$60,000.00

The Cottonwood Police Department will utilize the funds to purchase a side by side Off Highway Vehicle with emergency light package, police radio, and trailer for transporting the vehicle for the purposes of educating the public on Arizona Off Highway Vehicle laws and safety as well as enforcement of Arizona off highway regulations. We currently provide law enforcement on State Trust Land in Yavapai County, Coconino/Prescott National Forests, Dead Horse State Park, in conjunction with US Forest Law Enforcement, State Trust Land Investigators, and other local agencies like the Yavapai County Sheriff's Office. These are high volume Off Highway Vehicle areas partially due to the many Off Highway Vehicle Adventure rental companies in the area. The project would also include assisting our regional partners with additional OHV enforcement operations and public educational opportunities.

In addition to OHV enforcement, we will utilize the purchased vehicle for public education on OHV regulations and safety while on patrol and at public events like National Night Out, Dead Horse State Park Verde River Days, and Thunder Valley Rally.

The vehicle can also be utilized for environmental clean-up of trash left behind by those utilizing our public lands in conjunction with an alternative sentencing community service work crew program.
